Dept. G – Entomology
Superintendent:
Judging: July 28 – 1:30 p.m.

RULES:

1. A 4-H member may exhibit in the collection or educational class for each phase, or both.
2. Each 4-Her pre-entered in Entomology will participate in conference judging and must represent his or her project(s) in person.
3. Exhibits for Display, All Entomology projects must be taken to the Anderson Building during the exhibit entry time on Thursday, Aug. 2 from 4:30 – 5:30 p.m. so they may be displayed during the Lyon County Fair.
4. Collections (except for the Introductory phase) are to be placed in Plexiglas covered wooden boxes outside measurements of 18" x 24" x 3 1/2". This will be referred to as a standard box. Display boxes with glass covers will not be accepted.
5. Introductory phase exhibits are to be placed in cigar boxes (lids removed and each box covered with a clear plastic wrap) roughly 2" x 6" x 8".
6. Each exhibitor is required to identify each box by placing an identification label bearing exhibitor's name, county and class. One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside).
7. The number of orders, specimens and families, where required, must be included on the exhibitor's box identification label. Credit will be given only for the orders recognized in your 4-H entomology packet. Example: grasshoppers, cockroaches and walking sticks all belong to the order Orthoptera.
8. Emphasis in judging will be placed on the overall variety of Kansas insects represented in the collection, accuracy of identification, skill and technique acquired in mounting of specimens and overall arrangement and appearance of the collection.

9. Educational classes are limited to one standard box and a maximum of 150 specimens. Title of the exhibit should be indicated inside the box. Purpose of the project is to learn more about the importance, life cycles, biology, ecology, diversity, etc. of insects and related Arthropods. Subject matter can be as varied as the organisms themselves.

CLASS A

- 1 Introductory Entomology – This is especially for ages 7 to 9 or for beginners of any age. Collection – Display a minimum of 15 and a maximum of 30 species, representing at least 6 orders. Order labels must be pinned to bottom of box(s). A date/locality label is to be centered on pin beneath the insect. This class can be shown only at the County Fair.
- 2 Beginning Entomology (ages 7-11) – Collection – Display in one standard box a minimum of 50 and maximum of 125 species representing at least seven orders. Specimens should be grouped according to order. Order labels should be pinned to the base of the box. Two labels are required on each specimen. First label directly beneath the insect, centered on the pin, is the common name label. Common name refers to the commonly accepted name for the insect. Examples of common names include grasshoppers, cockroaches, or walking sticks for insects that belong to the order Orthoptera. When in doubt use the common name designated for the group in question. The second label is a date/locality label. It will be centered on the pin beneath the common name label. Members can exhibit in this class a maximum of three years, or until they receive a blue or purple ribbon in the Beginning phase at the State Fair: whichever comes first. Members should generally be encouraged to move on into Intermediate after one good year in the Beginning phase.
- 3 Beginning Educational Exhibit (ages 7-11)
- 4 Intermediate Entomology (ages 12-14) – Collection – Display a minimum of 100 and a maximum of 300 insects representing at least 10 orders. Two standard boxes can be used. All specimens should be grouped according to order; in addition, all insects in the orders of Orthoptera, Hemiptera, Homoptera, Coleoptera, Diptera, and Hymenoptera are to be identified to family. Families represent subdivision of order groupings and family labels will be pinned to the bottom of the box to represent subdivision of the appropriate order. Two labels will be centered on the pin beneath each specimen. First is the common name label and the second label is date/locality label. The common family name is acceptable as a common name for specimens belonging to the six basic orders where family identification is required. The common order name may be used as the common name of specimens that belong to those orders where family identification is not required. Use caution since some of the orders not being identified to the family do have major subdivisions. In the order Lepidoptera for example, common name of specimens would be technically correct as moths, skippers or butterflies. Members can exhibit in this class a maximum of three years or until they receive a blue or purple ribbon in the Intermediate phase at the State Fair.
- 5 Intermediate Educational Exhibit (ages 12-14)
- 6 Advanced Entomology (ages 15 & up) – Collection – Display a minimum of 150 and a maximum of 450 insects representing at least 12 orders. Three standard boxes can be used. Family identification is required for all insects belonging to the six basic

orders as outlined under the Intermediate phase. Family identification of insects in the remaining orders is optional, but desirable as long as accuracy is maintained. Two labels are required for each specimen – first the common name label followed by the date/locality label, both of which are centered on the pin beneath the insect. The guidelines detailed under the Intermediate phase may also be used in the Advanced phase except that all butterflies appearing in the collection should be labeled with the correct common name. Members can exhibit in the Advanced phase until they receive a purple ribbon at the State Fair. Members can continue to exhibit in the Education Class.

2. Each exhibitor is required to identify each display box by placing an identification label bearing name, county and number of specimens in the upper left-hand corner of the cover (inside use clear double-sided tape to adhere gummed labels), and by attaching a label with the same information on the lower right corner of the box (outside).
3. Geology specimens should be labeled with the number of the specimens, date collected, specimen name or description and county where collected.
4. For Classes 1, 2 and 3, specimens should be mounted in the box by proper groups – rocks, minerals, fossils.

Entries must be in place by 5:00 p.m., Friday, August 3 unless unavoidable delay because of weather, in which case, the Fair Association Secretary will be notified. Pre-entries will be submitted to Extension Office, by July 1, 2018. Breeding animals must also be pre-entered.
 5. Exhibitors will not be permitted to remove any animal prior the conclusion of the Round Robin on Tuesday, August 7 (see General Regulations on Page 6.)

Individuals are responsible for each and every stall used at the fair in all livestock areas. Clubs should also be responsible to make sure the club livestock areas are cleaned as well. This means verifying stalls are cleaned and common areas are cleaned no later than the county-wide fairgrounds cleanup on Monday. If a stall area is left unclean, the Fair Board could withhold the 4-Her's livestock premium(s).**
 11. 4-Her's participating in livestock classes must show **HIS OR HER OWN ANIMAL** by themselves unless they have more than one animal in a class, in which case another eligible 4-Her may show the second animal.

15. Official 4-H visual tag and electronic button must match Lyon County tagging information for animal to be exhibited at county fair.
16. Any lost tags must be identified prior to July 1 pre-entry deadline and the Extension Office must be notified of lost tag and the visual ID documented. Champion Showmanship Contest
Beef, Horse, Sheep, Swine and Meat Goat
Tuesday, August 7 – 8:00 a.m. – Show Arena**

All Livestock Coordinators are responsible for their specie area.

An exhibitor meeting will take place at the conclusion of the beef show on Monday, Aug. 6 (approx. noon) at the Show Barn Arena to determine round robin contestants in each specie. The 4-Her or a representative must be present at this meeting.

GUIDELINES

1. Showmanship Champion and Reserve Champion in Levels III and IV of these species will compete: Beef, Sheep, Swine, Horse and Meat Goat. All species will compete if two exhibitors in the same age level are qualified and willing to participate.
2. There will be a contest for Level III Division Champion and Reserve Champion and a contest for Level IV Division Champion and Reserve Champion of the above listed species.
3. If a 4-H member is a Champion or Reserve Champion in more than one specie, they must choose which specie they will show. The next blue placing will replace them in the specie the Champion or Reserve Champion chooses to drop.
4. If an age group for a specie is not available for Showmanship, then other Round Robin Contestants of that age group will not show that specie.
5. 4-Hers will rotate from one specie group every 5 to 7 minutes.
Judging Scale is as follows:
3-4 = poor 8-9 = good
5-7 = average 10 = excellent
6. Animals of the Showmanship winners in each specie will be used in the contest. Exhibitors must use the animal they qualified with. Failure to follow this rule will result in disqualification.
7. The person showing the specie that qualified them for the Round Robin is to be judged on the fitting of the animal, as well as showing.
8. Halfway through showing of each species, contestants will change animals so each person shows both animals within their age group. When showing horses, contestants will switch animals upon completion of the pattern. No pattern will be completed when showing the second horse.
