CLASS A
1 Introductory Entomology – This is especially for ages 7 to 9 or for beginners of any age. Collection – Display a minimum of 15 and a maximum of 30 species, representing at least 6 orders. Order labels must be pinned to bottom of box(s). A date/locality label is to be centered on pin beneath the insect. This class can be shown only at the County Fair.
2 Beginning Entomology (ages 7-11) – Collection – Display in one standard box a minimum of 50 and maximum of 125 species representing at least seven orders. Specimens should be grouped according to order. Order labels should be pinned to the base of the box. Two labels are required on each specimen. First label directly beneath the insect, centered on the pin, is the common name label. Common name refers to the commonly accepted name for the insect. Examples of common names include grasshoppers, cockroaches, or walking sticks for insects that belong to the order Orthoptera. When in doubt use the common name designated for the group in question. The second label is a date/locality label. It will be centered on the pin beneath the common name label. Members can exhibit in this class a maximum of three years, or until they receive a blue or purple ribbon in the Beginning phase at the State Fair: whichever comes first. Members should generally be encouraged to move on into Intermediate after one good year in the Beginning phase.
3 Beginning Educational Exhibit (ages 7-11)
4 Intermediate Entomology (ages 12-14) – Collection – Display a minimum of 100 and a maximum of 300 insects representing at least 10 orders. Two standard boxes can be used. All specimens should be grouped according to order; in addition, all insects in the orders of Orthoptera, Hemiptera, Homopteran, Coleoptera, Diptera, and Hymenoptera are to be identified to family. Families represent subdivision of order groupings and family labels will be pinned to the bottom of the box to represent subdivision of the appropriate order. Two labels will be centered on the pin beneath each specimen. First is the common name label and the second label is date/locality label. The common family name is acceptable as a common name for specimens belonging to the six basic orders where family identification is required. The common order name may be used as the common name of specimens that belong to those orders where family identification is not required. Use caution since some of the orders not being identified to the family do have major subdivisions. In the order Lepidoptera for example, common name of specimens would be technically correct as moths, skippers or butterflies. Members can exhibit in this class a maximum of three years or until they receive a blue or purple ribbon in the Intermediate phase at the State Fair.
5 Intermediate Educational Exhibit (ages 12-14)
6 Advanced Entomology (ages 15 & up) – Collection – Display a minimum of 150 and a maximum of 450 insects representing at least 12 orders. Three standard boxes can be used. Family identification is required for all insects belonging to the six basic orders as outlined under the Intermediate phase. Family identification of insects in the remaining orders is optional, but desirable as long as accuracy is maintained. Two labels are required for each specimen – first the common name label followed by the date/locality label, both of which are centered on the pin beneath the insect. The guidelines detailed under the Intermediate phase may also be used in the Advanced phase except that all butterflies appearing in the collection should be labeled with the correct common name. Members can exhibit in the Advanced phase until they receive a purple ribbon at the State Fair. Members can continue to exhibit in the Education Class.

Livestock General Regulations
1. No exhibitors will be permitted to stay on the Fairgrounds between 12:30 a.m. and 5:30 a.m. unless accompanied by parents or given special permission in writing and signed by the Fair Board Secretary.
2. Exhibitors will be required to furnish feed troughs, feed, and bedding. Straw is strongly discouraged. No feed or hay shall be sold on the grounds without permission from the management.
3. FOR REASONS OF SAFETY AND SPACE, no blocking or fitting chutes are allowed in the livestock buildings.
4. Entries will be recorded and space assigned upon receipt of entries. We reserve the right to close the entries when the barn is filled. Entries must be in place by 5:00 p.m. Thursday, August 6 unless unavoidable delay because of weather, in which case, the Fair Association Secretary will be notified. Pre-entries will be submitted to Extension Office, by July 1, 2020. Breeding animals must also be pre-entered.
5. Exhibitors will not be permitted to remove any animal prior the conclusion of the Round Robin on Monday, August 10 (see General Regulations on Page 6.)
6. Exhibitors must own all market beef by official beef tagging the first weekend in February, with the exception of Bucket Calf, which must be purchased between October 1 – May 1 of current year. Bucket Calf, Meat Goat, Swine, Dairy and Sheep must be owned by May 1, 2020, and NEED TO BE RECORDED AND TAGGED on the specie-specific Facebook group. All breeding livestock must be tagged by the May 1 deadline or proper registration papers showing family ownership copied and on file at the Extension Office prior to May 1.

10. Stalls must be cleaned before premiums will be awarded. As defined by the Fair Board, a clean stall is one that has bedding removed and is swept clean. Individuals are responsible for each and every stall used at the fair in all livestock areas. Clubs should also be responsible to make sure the club livestock areas are cleaned as well. This means verifying stalls are cleaned and common areas are cleaned no later than the county-wide fairgrounds cleanup on Monday. If a stall area is left unclean, the Fair Board could withhold the 4-H’s livestock premium(s).
11. 4-Her’s participating in livestock classes must show HIS OR HER OWN ANIMAL by themselves unless they have more than one animal in a class, in which case another eligible 4-Her may show the second animal. As per the Kansas State Fair guidelines, an exhibitor substitution may be allowed only in the following case: Exhibitor is ill/injured; must have physician’s order and be present at the time of show.
